## RAM Erosion Control Mat

### PRODUCT DESCRIPTION

Barrett Erosion Control Mat is design to control wind and water erosion, providing the time required for proper greenroof plant establishment. The fabric's open weave construction allows the passage of sunlight and moisture, providing the optimum environment for plant root development.

Made from photodegradable recycled polypropylene, this product is an important element in Barrett Greenroof-Roofscapes® installations.

### USES

- Controls erosion of Greenroof-Roofscapes® sod and plantings on both flat a sloped installations.

### FEATURES

- Provides protection against wind and water erosion
- Provides adequate time for root establishment
- Made from recycled polypropylene contributing to LEED points
- Degrades in approximately 3 years allowing for better plant establishment.
- Larger rolls provide better soil stabilization with less attachment
- Strong but light weight

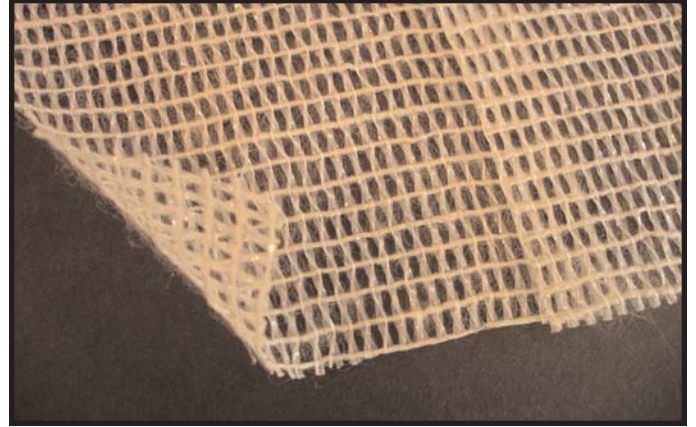

### PACKAGING

Roll width	12 ft. 6 in.
Roll length	432 ft.
Roll size	5400 sq.ft.
Roll weight	105 lbs.

Smaller roll widths are available as special order.

### APPLICATION GUIDELINES

The installation and attachment of this product will vary depending on the greenroof design, vegetation and roof slope. Contact Barrett for specific installation instructions.

### TYPICAL PHYSICAL PROPERTIES

Property	Test Method	Typical Value
Weight	ASTM D-3776	2 oz/sq.yd
Opening Size	Measured	1/8" x 1/8"
Tensile Strength	ASTM D-4632	50 lbs x 30 lbs
Burst Strength	ASTM D-3786	100 PSI

### PRODUCT SAFETY INFORMATION

Ram Erosion Control Mat offers no unusual health or safety risks for a product of this nature. As with any roofing process, proper ventilation, clothing and eye protection is important.

For specific information, contact the Barrett Company for a current Material Safety Data Sheet on this product.

The user should not assume that all safety measures are indicated or that other measures may not be required.
