## Greenroof •Roofscapes® Drain Access Box

### PRODUCT DESCRIPTION

Greenroof •Roofscapes® GR Drain Access Boxes are designed to keep debris away from roof drains and promote drainage through the entire greenroof system profile. Made of 18 gauge steel, these drain access chambers are design for long term performance.

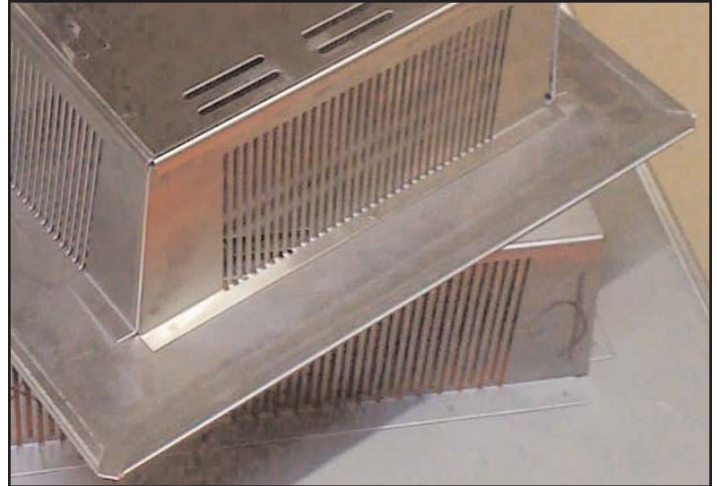

Extensions are available for deeper assemblies and custom boxes are available for overflow and intensive roof installations.

### Application Guidelines

The drain access box horizontal flanges shall be primed with Ram Primer and Surfacer Conditioner and allowed to dry. Install access boxes centered over the roof drains, setting the horizontal flange is an 1/8 inch thick coat of Ram Mastic over the membrane protection course and press firmly in place. Install balance of overburden over the access box flanges.

These boxes can be used with ballasted and unballasted surround.

### Stainless Steel Drain Access Boxes
