Product Description

Ram Caulk is a low modulus, non-sag silicone for sealing joints in concrete, masonry, wood and sheet metal in all climates. Ram Caulk is made to be used in conjunction with Barrett rubberized asphalt waterproofing systems. The product is supplied as a ready-to-use, one component, moisture curing system which provides a lasting and flexible seal. Ram Caulk can be used in all typical joint sealant applications. It offers outstanding weathering resistance, remains flexible down to temperatures as low as -50°F, it is jet-blast resistant and will remain field serviceable when exposed to intermittent fuel and oil spills. The sealant bonds strongly to portland cement concrete joints without the use of a primer, and it is compatible with Ram Tough rubberized asphalt.

Uses
- Sealing joints and metal work in conjunction with rubberized asphalt waterproofing.

Features
- Improved weathering resistance.

Benefits
- Longlasting building envelope sealant.

Application Guide

The unit weight is 10.9 pounds per gallon. One gallon will seal 150 feet of 1/2 inch wide by 1/4 inch deep joint. Exact yield will vary depending on thickness of caulk, waste, application techniques, etc. Do not install below 32°F or to any dirty, damp or wet surfaces.

Packaging

Available in cases of six 1 qt. tubes per case.

Clean Up

Do not allow material to drain into sewers or water supplies. In its present state, this product when discarded or disposed of is not a hazardous waste according to Federal regulations. Silicone is not water soluble and requires an acceptable solvent like rubbing alcohol or citrus based cleaner, used in conjunction with mechanics hand cleaner and terrycloth rags. Flush and rinse well after hands and skin are clean.

Storage

Ram Caulk should be stored below 90°F in a dry location. Shelf life is 20 months from date of manufacture noted on container.

Application Precautions

Not intended for applications subject to continuous water immersion, below-grade applications, on surfaces requiring painting, or in areas where abrasion and physical abuse are encountered.

Product Safety Information

Ram Caulk offers no unusual health or safety risks for a product of this nature. As with any roofing process, proper ventilation, clothing and eye protection is important.

For specific information, contact the Barrett Company for a current Material Safety Data Sheet on this product. The user should not assume that all safety measures are indicated or that other measures may not be required.
