

Greenroof-Roofscapes®

# PolyFelt EX9 (9 oz)

## DESCRIPTION

Greenroof-Roofscapes® Extensive Protective Fleece is designed specifically for use within Extensive green roofing systems. Specific to this product, it:

- **Protects the roof membrane** and/or root barrier against damage from light mechanical demands.
- **Separates materials** of incompatible substrates from one another.
- **Stores water & nutrients**, depending on its function within the application.
- Has a mass/structure and water holding capacity designed with the dead load weight and plant palettes of the Extensive roof system in mind to give **the perfect balance of water holding capacity and protection**
